By Tennessee Medical Association

All Tennessee prescribers are required to complete controlled substance education. **Know More No More: Ending Tennessee's Opioid Epidemic** was launched in late 2025 to fulfill that requirement- and provide the most up-to-date information on opioid prescribing guidelines.

This online course is self-paced and upon completion participants receive 2 hours of CME. The program was developed by the Tennessee Foundation for Quality Patient Healthcare and funded under a grant by the Tennessee Opioid Abatement Council. It was developed by your peers and covers the Tennessee Chronic Pain Guidelines.

For more information, or to enroll, visit knowmoretn.org.

Know more... so that there can be no more opioid abuse.
